

HOW WE MEASURE?

ANGELL

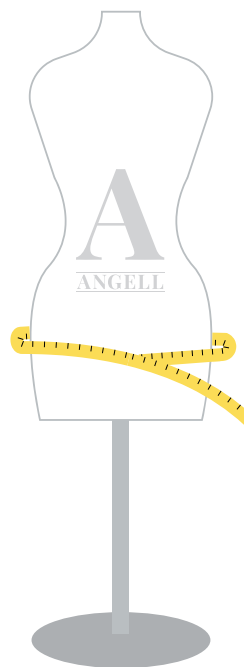

WAIST CIRCUMFERENCE

we measure without clothes, in a standing position, in the most indented place of the torso, not too tightly. The measure must be at the same height at the front and rear of the body.

CIRCUIT IN THE BUST

we measure in a soft bra, in a standing position, in the fullest place of the bust line, gentle flexing the measuring tape. The measure must be at the same height of the body on the front and the rear.

HIP CIRCUMFERENCE

we measure without clothes, in a standing position, in the fullest hip line. The measuring tape should pass through the center of the buttocks.
